

My husband and I have been donating to KLOVE for several years now. It's nice to know that with all the troubles in the world we have a station we can go to and feel good about life and we can share it with the entire family. KLOVE helps us to stay focused on the importance of family values and issues that make a difference in our families lives--not like some of the music out there today. So much bad things you hear on the radio today about guns, sex, killings. Why isn't that directed to instead of KLOVE that has such a positive note ALL THE TIME. No matter where we go we find KLOVE and listen to it faithfully. PLEASE DON'T TAKE AWAY THE ONLY GOOD MUSIC AWAY! When we are happy, sad, lonely, or grieving KLOVE always has something to heal your heart. We will be lost without, so please help us keep KLOVE!
